With window

THE SOLUTION IS SIMPLE.

Create work spaces quickly and easily with the Hush Panel system. This innovative cubicle partition system offers endless arrangement possibilities at an affordable price point. Simply slide the posts, panels, and optional windows together to create individual or group work stations — no tools are required, and arrangements can easily be expanded to grow along with your organization! Our stylish, 2" thick partition panels are both durable and lightweight. An attractive, anodized aluminum frame and post construction will provide a modern look to your work environment. Choose from over 20 sound-dampening fabric colors, or go for a unique look with woodgrain laminate panel options. We're certain the Hush Panel will be the solution to your space-dividing problems.
