ROOM DIVIDERS

Our portable partitions are a versatile solution for spaces of all sizes and shapes. We offer a variety of products that open, collapse, and store in a matter of minutes.

FEATURES

Exclusive telescoping hinge option keeps all panels in a straight line regardless of length

Industry leading 360° rotating hinge option provides full-range movement and no-pinch rounded seams

Increase stability and eliminate tripping hazards with full-sized end panels

Lightweight aircraft aluminum frames are strong, durable and safer than steel dividers

Locking casters on each end panel can be quickly activated for stationary use

SoundSorb option provides enhanced sound-dampening and acoustics control

Acoustical fabric panel options accept pushpins for posting artwork or signage

Panel frames accommodate hooks for screens or dry erase boards

"Versatile & easy to use!
Able to move the divider, as well as set up & break down on my own. Highly recommend!"

-Anthony A.

Room Divider 360 Folding Portable Partition

Available in Fabric, Polycarbonate, SoundSorb, Laminate and Custom Print

Our flagship partition will provide you with unprecedented arrangement versatility. Each panel uses our industry leading 360° rotating hinges to provide a full range of movement per panel unlike many outdated partitions featuring limiting piano hinge designs that restrict movement. The Room Divider 360 will allow you to create anything from straight lines, U shapes or C shapes. Link multiple units with Room Divider Locks (sold separately) and get creative with your situation! The Room Divider 360 can even be custom printed with your own branding, mascots, or artwork across the panels. We're confident the Room Divider 360 offers the most versatility and will be your do-it-all divider for any situation. The Room Divider 360 is available in a wide range of widths and heights to suit almost any space.

StraightWall Sliding Portable Partition

Available in Fabric, Polycarbonate, SoundSorb and Laminate

Slide it out! Our StraightWall offers most of the same benefits as our flagship Room Divider 360 but with our exclusive sliding hinges. This unique telescoping hinge design keeps each panel in a straight line at all times, allowing the panels to be quickly and easily opened and closed in an orderly fashion. Your go-to if efficiency is your top priority, the StraightWall makes a nice alternative to accordion doors or track-mounted partition systems. The StraightWall comes in three widths and five heights to suit most situations.

QuickWall Folding Portable Partition

Available in Fabric, Polycarbonate, SoundSorb, Laminate and Custom Printing

Our 3-panel Quick-Wall partitions are perfect impromptu space dividers for creating quick privacy in any area. This wall-mounted, folding version uses our patented 360° rotating hinges with un-pinchable seams, allowing a full range of movement for a variety of arrangement options. This made-in-the-USA divider has a fabric option that is sound-dampening and pushpin-accepting for posting signage or other documents while the polycarbonate option allows you to choose varying levels of translucency to allow light to pass through. Three heights available to choose from. This divider comes with both feet and wheels for even more options in your home or office.

Privacy Screen

Available in Fabric, Polycarbonate, SoundSorb, Laminate and Custom Printing

Simple and efficient, the Privacy Screen is a 3-panel folding privacy screen that is available in three different heights. This portable partition includes our industry leading 360° rotating hinge with un-pinchable seams for use in a variety of applications ranging from nursing stations and vaccination booths to small break areas and quiet rest zones. In addition, with no feet or wheels to take up room, the Privacy Screen folds completely flat for easy storage. Aluminum frame design ensures panels will not rub against each other when closed, allowing attached artwork or signs to be transported without being removed.

Operable Wall (Wall-Mounted)

Available in Fabric

Looking for a modern revamp solution for a loft ceiling office or building? Try the Operable Wall partition that can cover spaces of up to 12' high and 19'2" long. This wall-mounted, floor-based sliding partition is a low-cost alternative to expensive track-mounted accordion door systems. The Operable Wall also allows H VAC to flow freely and will not require building code permits for installation. The 2" acoustical panels are perfect for dampening sound while the anodized aluminum frame offers maximum durability with a sleek, modern look. The Operable Wall is available in four widths and three heights.

Adjustable Feet

ClearView Folding Countertop Screen

Available in Clear Polycarbonate

The Countertop Screen is a 6'8" w x 3' h polycarbonate panel that forms a shield to help prevent the direct physical and airborne spread of germs. The panel transparency allows for items to be scanned at checkout through the screen, preventing the physical contact needed to transfer products. The credit card terminal can be placed on the customer's side of the partition while keeping the register on the employee's side, providing additional safety. An opening at the bottom of the partition allows for the transfer of small items, papers, or payment for transactions. The Window model features an 8¼" w x 13¾" h opening for most point of sale situations.

Lightweight Panel

Portable

Easily Cleanable

ClearView Countertop Sneeze Shield

Available in Clear polycarbonate

The Countertop Shield is our smallest and lightest barrier option. At only 23" w x 32" h or 33" w x 29" h it fits in smaller spaces to assure your employees and customers that you have taken the steps to prevent the direct physical and airborne spread of germs. The clear polycarbonate panel allows items to be scanned at checkout through the screen, preventing the physical contact needed to transfer products. An opening between the feet at the bottom of the partition allows for the transfer of small items. The open lower window measures 6" high.

Connectors

VersiFold Acoustical Room Divider

Available in Ribbed Fabric

Our VersiFold Acoustical Divider is a folding acoustical divider that dampens sound as it separates space. Each partition panel uses a fully-tackable, acoustical ribbed fabric over a heavy foam core. Set up the VersiFold in a zig-zag pattern, or combine with the optional VersiFoot accessories to create either “L” or “C” shapes. Each unit has side magnets that allow multiple VersiFolds to be interconnected. Unlike our other room dividers, these acoustical partitions meet the floor directly from end to end, keeping sound confined from other areas.

Easy Storage With
Roll-Up Design

Magnetic Unit-to-Unit
Connectors

VersiPanel Acoustical Partition Wall

Available in Fabric with Polycarbonate Window Options

If sound-dampening is a priority, our VersiPanel is a great place to start. This portable partition wall is constructed with acoustical ribbed fabric and a heavy foam core. VersiPanel is a popular studio partition or office divider due to its superior sound-dampening capabilities and attractive looks. Unlike other partition walls, the VersiPanel meets the floor directly from end to end, keeping sound confined. Constructed of multiple small panels, the VersiPanel may be arranged in a serpentine “S” shape, or add a couple optional VersiFoot accessories to create “C” or “L” shapes, which are often used for setting up recording or testing spaces.

Separate yourself from the hustle and bustle of the outside world. Whether you're on a city rooftop or you need a space to do your daily routine away from neighbors, let the feeling of seclusion give you that break you need.

Portable Folding Coat Rack

Available in Black

Perfect for coats, hats, costumes, and other garments, our portable coat racks collapse easily with the simple pull of a lever. The high-quality steel construction is durable yet lightweight enough to easily roll the rack from room to room. Four robust 3" locking casters allow the coat rack to roll smoothly, while providing a wide base for added stability. The rubber casters provide easy transportation and smooth opening and closing over any surface, from carpet to wood. In the folded position, our Portable Coat Racks can be locked to prevent opening for no-hassle storage. Available in three sizes and up to 144 coats using both the bars and hooks.

Bullet Resistant

The Bullet Resistant Portable Shield Partition

Available in Fabric

The Versare Portable Shield Partition is available in 24 colors and is designed to resemble portable room dividers already found in classrooms. This bullet resistant partition can be easily stored with a collapsed width of 33" and just as easily setup to its max width of 19' 9" in just seconds providing an instant protective shield with minimum deployment time. Each Portable Shield Partition is custom made to order and requires testing to meet the National Institute of Justice standards. Please expect delivery within 4-8 weeks from when your order is placed.

For a full office solution Versare is now stocking Furnishings. Made to last, affordable and easy to use. Our office products are now a one stop shop.
